Pinfire Guns USA 2mm, 8-Shot RING GUN

Version 1.0

Exclusive to Pinfire Guns USA, the most unique item in our Spy Gun series is a limited and numbered pepperbox 8-shot RING GUN! Your choice of BLUED-STEEL or POLISHED-STEEL Cylinder. Each is made entirely by hand by master craftsman Rosen for us at Pinfire Guns USA. Each has a Gold-Filled Rope designed Band, Gold-Plated Cylinder Base, and a Stainless Steel Pepperbox Cylinder (polished or blued). No more than 13 of this version of Ring Guns will ever be made in this series - get yours before they are gone! There are ONLY 4 of these left, out of the original 13. The price has increased as they sell, and are only going to be more expensive in the future.

Antique ring guns have been featured and sold for tens of thousand dollars and in hard to find places, such as high-end auctions and even on a pawn stars episode. We are excited to have commissioned an updated version which fires the more readily available 2mm pinfire blanks and live rounds(links below)!
