

Bob Urso 2mm Pinfire Beretta

\$685.90

BOB URSO'S BERETTA 2mm PINFIRE GUN

Back In Stock-We Have One Available: Gun #20

10 2mm Pinfire Blanks & Glass-Top Case Included!

This Pinfire mini is modeled after **James Bond's favorite, the Beretta Model 1934** by **Bob Urso**. Bob makes most guns to order and we are proud to have **in stock a Beretta**. Bob tried to be as **faithful as possible to the look-of the original**, including emulating the black plastic grips with the **Pietro Beretta Logo**. Each is Numbered and this listing is #20. The action is, however, greatly **simplified-modified to fire the 2mm Pinfire blank cartridge**. The barrel tilts up to load, and the action uses the front of the grip strap as the trigger. If you compare the two additional images, you can see how, when the Beretta is cocked, the front of the grips moves forward. The photo showing the open, back view gives a good view of the breach, and shows how in this underhammer pistol, the cartridge is loaded with the pin in the down position.

Bob Urso is one of today's serious master craftsmen of miniature pinfire guns and you can also purchase from our site Bob's very useful **reference book** on the world of mini gun collectibles that he painstakingly researched and detailed in "**The Tiniest Guns**" in this "Bob Urso" section of our site.

We're able to offer this beauty, along with all our products, to both domestic U.S. and international buyers and this beretta includes a leatherette, **glass-top case** and **10 free 2mm pinfire blanks included** with the price/purchase.
