These are **ANTIQUE**, no longer in production anywhere - but as some wonderful 2mm miniature guns are made to fire **RIMFIRE caps/blanks** (no pin!), we are grateful to have found these extremely hard to find rarities. We can **NOT GUARANTEE** THEY WILL WORK, BUT THEY LOOK IN AMAZING CONDITION AND TEST-FIRING HAS HAD **ZERO FAILURES**. The price is relative to the rarity and we are doing our best to bring them to our customers without much mark-up. If you wish to order more than 1 order (each order comes with 100 **ENTIRE BOX of RIMFIRE caps/blanks**, then contact us so we can work out a price commiserate with this larger bulk order. These work great with the **Tom Weston 2mm Belmex**, and **some of Bob Urso's minis** designed for RIMFIRE, the **2mm Kolibris**, and all other miniature 2mm RIMFIRE guns. If you collect miniature guns, blanks or ammo, or need some to fire off that 1952 Tom Weston Ivory handled Belmex for the first time, this is your lucky day! They measure 2.75mm long, 2.15mm at the neck, 3mm wide at the base of the rim, the rim is 0.9mm tall, and the inside wall of the cap is just 0.15mm thick.

If you are interested in ordering multiple orders of these very collectible Alfred Nobel & Co cardboard-boxes with 100 2mm rimfire caps in each, please contact us so we can work out a price commiserate with a larger bulk order .
