There are **2 cylinders** which come with this model-**you get both Polished Steel and a Blued Steel option**, each is interchangeable and numbered to correspond with their gun edition. There are also 2 options to secure your cylinders - a standard screw which nicely matched (same as is in the basic model), but also a **Ruby-encrusted screw** which comes with its own special key to unscrew to load and unload the cylinder.

Each is made entirely by hand by master craftsman Rosen for us at Pinfire Guns USA. Each No more than 20 of these Ring Guns will ever be made in this series - get yours before they are gone!
